

Name of equipment: Fluorescent Microscope Upright with Digital Camera

Make: LEICA

Model: DMI 2500

Working Principal:

Application of Equipment: A microscope is as good as its optics. And this holds true for the digital world of today. High-quality microscope objectives from Leica Microsystems combine brilliance and sharp contrast with high resolution and an optimized image field.

The Leica DM2500 M's wide image fields reduce the time needed to scan samples and analyze the structures of interest. Images are always high-contrast and full of detail.

Instruction for Use: 1) https://www.leica-microsystems.com/fileadmin/downloads/Leica%20DM2500%20M/Brochures/Leica_DM2500_M-Brochure_EN.pdf

Contact Details: **Director**

National Institute for Research in Tribal Health (NIRTH) NIRTH Complex, Nagpur Road
